

PROFESSIONAL SUMMARY

Full Stack Developer with **2 Years of Experience** and expertise in creating dynamic web applications using **React JS** for front-end and **Node.js** for back-end. Skilled in **React Native** for cross-platform mobile app development. Experienced in building scalable solutions with **Service-Oriented Architecture (SOA)** and **Microservices**. Passionate about leveraging modern frameworks like **Next.js** to optimize performance and user experience across platforms.

EXPERIENCE

- **Full-Stack Developer, Webmagic Technologies | 03/2024 - Present | Delhi**
 - Developed a mobile application using **React Native** as the front-end framework, focusing on an intuitive user experience and responsive design.
 - Designed and implemented the **Admin Panel** using **React.js**, **RTK Query** for efficient state management and API integration, along with **Tailwind CSS** for responsive design and **Material UI** for consistent UI components.
 - Integrated **graphical and statistical data representation** in the admin panel, providing key insights through charts and graphs.
 - Worked on the backend architecture using **Node.js** and maintained **RESTful APIs**, **Express.js**, and **SQL** database in a microservices-based architecture for scalable and efficient data storage.
- **Full-Stack Developer, Janus Koncepts | 03/2023 - 03/2024 | Noida**
 - Developed a **B2B eCommerce mobile application** using **React Native**, delivering a seamless and intuitive shopping experience across **iOS** and **Android** platforms for business users.
 - Designed and implemented the **Admin Panel** using **React.js**, and API integration, along with **Chakra UI** for responsive design and **Material UI** for consistent UI components.
 - Assisted in the optimization of application performance, resulting in faster load times and improved user experience.
 - Worked on the backend architecture using **Node.js** and maintained **RESTful APIs**, **Express.js**, and **MongoDB** database in a microservices-based architecture for scalable and efficient data storage.

SKILLS

React.js, React Native, Redux, RTK Query, JavaScript, Node.js, Express.js, Next.js, GraphQL, SQL, Tailwind CSS, Material UI, Microservices Architecture, MVC Design Pattern, Monolithic Architecture, HTML, CSS, Bootstrap, AWS S3 bucket, EC2, Sequelize, Docker, SOA (Service-Oriented Architecture), Docker, Docker Compose, Nginx, Git, GitHub, Rest APIs

PROJECTS

- **Haply Dating Mobile App Admin Panel and Backend - Link**
React.js, React Native, Node.js, Express.js, SQL, Sequelize, RTK query, Microservices, Docker
 - * Developed **Admin Panel** and **Mobile App** for managing users, messages, and matchmaking algorithms.
 - * Implemented a **microservices-based backend** to improve scalability and modularity Utilized **Docker** and **Docker Compose** for containerization.
- **Pepcco: India's Largest Engineering Aggregator Platform - Link**
React.js, SOA, Node.js, Express.js, SQL, Sequelize, Docker, RTK query
 - * Developed a platform that connects engineers with clients, streamlining the hiring process.
 - * Developed a robust platform using **React.js** for the frontend and **Node.js/Express.js** for the backend Utilized **AWS**, **AWS S3** for scalable hosting.
- **SLMS: Software License Management System - Link**
React.js, React Native, Node.js, Express.js, MongoDB, Docker
- **Jewellery Bliss: B2B eCommerce mobile application**
React.js, React Native, Node.js, Express.js, MongoDB, Docker

CERTIFICATIONS

- * META Introduction to Front-End Development (08/2022) : **Link**
- * META Programming with JavaScript (09/2022) : **Link**
- * Cybersecurity Virtual Experience Program Mastercard (05/2022)

EDUCATION

- **(CBCS) BA(PROG)Computer Sci and Political Sci, Delhi**
Shyam Lal College EVE Delhi University

2019 - 2022
